Product Description

BASIC USE
The 99 Series door activator switches are designed to provide reliable activation of any automatic door.

The 99 Series features 6" round face plates in either stainless steel with an etched and paint filled legend or blue powder coated aluminum with an engraved legend. A 4 1/2" square formed stainless steel back plate eliminates possible wall damage from standard use.

Designed as a universal switch, the 99 Series fit single-gang or 2-gang electrical boxes with no adapters necessary. A surface mounting box is also available.

Each unit is quality built utilizing heavy gauge stainless steel, aircraft quality rivets and screws, durable finishes and the most reliable microswitch in the industry.

APPLICABLE STANDARDS

American National Standards Institute (ANSI) - Building Hardware Manufacturers Association (BHMA) - ANSI/BHMA A156.19.

APPROVALS

UL (Cherry Switch)

Installation

The 99 Series Switch is easy to install.

Hardwired Applications:

Mount to a standard single or 2-gang electrical box at the desired wall location. Remove the face plate from the switch assembly. Connect the necessary signal wires to the appropriate switch contacts (COM & N.O. are standard). Secure the switch assembly to the electrical box and reattach the face plate.

Wireless Applications:

Mount a TX-323 Transmitter and surface mounting box in the desired location. Program the desired security code and connect the transmitter wire leads to the

99 Series 6" Round Door Activator Switches

Installation (continued)

COM and N.O. switch contacts. Attach the wall switch assembly to the surface box and reattach the face plate.

Custom Applications:

The 99 Series Switch can be customized in a variety of ways. Virtually any legend can be placed on the face plate as well as custom colors or finishes. Contact the factory for pricing.

COST

Cost information on MS Sedco products is available from the manufacturer's authorized distributors.

Warranty

MS Sedco, Inc. guarantees this product to be free from manufacturing defects for three years from date of installation. Unless MS Sedco is notified of the date of installation, the warranty will be in effect for three years from the date of shipment from our factory. If, during the first three years, this product fails to operate and has not been tampered with or abused, the unit can be returned prepaid to the factory and be repaired free of charge. After three years, the unit will be repaired for a nominal service charge. **Limited warranty is in lieu of all other warranties,**

expressed or implied, including any implied warrantability of merchantability. No representative or person is authorized to assume for MS Sedco any other liability in connection with the sale of our products. All warranties are limited to the duration of this written limited warranty. In no event shall MS Sedco be liable for any special, incidental, consequential or other damage arising from any unclaimed breach of warranty as to its products or services.

Maintenance

MS Sedco recommends that all maintenance and adjustments be performed by an AAADM Certified Technician.

Technical Services

MS Sedco's staff of factory trained sales and service personnel offer design assistance and technical support. Local distributors are also available to assist in selecting appropriate devices for specific uses and to provide onsite installation.
