# Product Update 4081

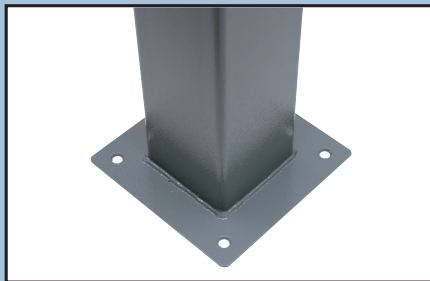

## MS SEDCO introduces Industry's First Foot for Square Bollards

MS Sedco is pleased to introduce a surface external mounting option in addition to the previously-available surface concealed option for its 608 Heavy Duty Switch Post. The surface external option features a new foot which is welded to the post to provide additional stability and easier installation for surface-mounted applications. There is no additional charge for this option, but it must be specified when ordering.

How to order:

Include -SE at the end of the part number.

Example: 608-H-GR-42-SE  
Gray post assembly with recessed  
59-H switch and surface external option

Order with 59 Series or  
619 Series Vestibule Switch  
already installed  
OR  
Install any switch you'd like!
