

OVERVIEW

APPEARANCE: The PVI Modular Stair System with handrail has a clean uncluttered appearance that will fit in most surroundings.

LOW MAINTENANCE: All aluminum design has lifetime durability in all kinds of climates without periodic painting or renewal of preservatives. The aluminum alloys used are resistant to salt corrosion (noncorrosive or pet safe salt is recommended). The modular stair system may even be used in coastal areas and cold climates that require the use of deicers.

SEMI PERMANENT: The PVI Modular Stair System serves the purpose as well or better than a permanent concrete/wooden stair, but can still go along with the user if they move, or can be removed and resold when no longer needed. The PVI Modular Stair System is designed to be freestanding and completely independent of the existing structure. In most cases this simplifies compliance with local codes and may eliminate the requirement for a permit.

EASY INSTALLATION: The components of the PVI Modular Stair System are designed to be quickly and easily assembled with simple/common hand tools and set into place without the need for heavy construction equipment. A van, pickup, or small trailer is all that is needed to transport the stair components to the job site.

SHIPPING: The PVI Modular Stair System components are stocked and warehoused so in most cases an order can be quickly filled and shipped. The lightweight aluminum design and plant location make it economical to ship to any part of the country.

COMPONENTS:

TREAD WIDTH: 40"

TREAD DEPTH: 12"

TREAD RISERS: Adjustable 6" - 8"

#STEPS	RISE	RUN	WEIGHT
2 STEPS	12" to 16"	22.75" to 24"	48 lbs.
3 STEPS	18" to 24"	33.75" to 36"	62 lbs.
4 STEPS	24" to 32"	44.75" to 48"	80 lbs.
5 STEPS	30" to 40"	55.75" to 60"	93 lbs.
6 STEPS	36" to 48"	66.75" to 72"	108 lbs.

TOOLS REQUIRED

- RATCHET
- 1/2" DEEP WELL SOCKET
- 1/2" WRENCH
- 1/4" MASONRY BIT
- TAPE MEASURE
- BUBBLE LEVEL
